POCKET COMPUTER NEWSLETTER

POST OFFICE BOX 232, SEYMOUR, CT 06483

ARE YOU WORTH $1.50 AN HOUR?

We are pleased to be able to announce a new service from *PCN*. A number of the most popular programs from the pages of our POCKET COMPUTER NEWSLETTER are being placed on cassette tape. They are initially being introduced at low cost exclusively to domestic subscribers.

NOTE: Since these tapes are being provided as a service to *PCN* subscribers, they will be supplied without documentation. You must refer to the appropriate issues of The POCKET COMPUTER NEWSLETTER for applicable operating and application information.

By the way, we figure it would take the average person six hours or more to accurately key in the programs provided on a typical cassette. At the low introductory price of just $8.95 (postpaid in the U.S.A.!), you would be saving money even if your time was worth just $1.50 an hour!

Our first two cassette tape packages of *PCN* programs are for the Radio Shack PC-2/Sharp PC-1500 PCs. Note that the second package contains programs that have been converted from PC-1/PC-1211 format. These are now supplied on cassette ready to load and run on your PC-2/PC-1500!

Sorry, tapes are currently only available with the programs listed below. We are *not* able to provide other programs at this time and we are *not* able to record programs on an individual basis. However, if you would like to see a particular program supplied on cassette tape in the future, let us know. We will try to schedule the more popular programs at the earliest opportunity into future tape packages.

Use the handy forms below to place your order.
